These measures are in addition to the campus safety regulations already in force. In case of emergency, call 22222 or 020 - 5982222
Together, we’ll get corona under control
At VU Amsterdam, we behave responsibly and give each other space.

---

**Education on campus**

In the first semester, educational activities will start in hybrid form: all lectures and exams will take place online or remotely, with the possibility of teaching on campus being assessed on a period-by-period basis. Each programme has been allocated a specific area on campus where it can organize its own educational activities. Check [rooster.vu.nl](https://rooster.vu.nl) to see which activities are taking place online or on campus.

- You are allowed to be in the area allocated to your programme 30 minutes before the start of your scheduled activity
  - Arriving earlier will lead to extra crowds on campus
- If your activity is on floors 1 to 6, take the stairs if at all possible
  - To go to higher floors, use the appropriate lift
- Make sure you keep a distance of 1.5 metres from your teachers and fellow students
  - The layout of the classroom cannot be changed and no chairs may be removed
- You must stay in or close to your classroom or study area
  - Don’t go anywhere on campus unless you need to be there. Bear this in mind when you go for a meal or a drink
- When your activity is over, don’t stay on campus longer than you need to

**Studying on campus**

Studying from home will remain the norm. Limited study spots are available on campus for students who are not in a position to study or take exams at home. More information is available at [vu.nl/thuisstuderen](https://vu.nl/thuisstuderen).

- You can clean your study spot when you arrive and when you leave at the end of the day
  - Cleaning materials are available
- Stick to one study spot and stay within the study area
  - Limiting your use of lifts and stairs creates space for others to share the campus

**Leaving the campus**

- Leave your classroom or study area using the routes indicated and use the stairs whenever possible
